

Shipping Lunchtime Lecture Series

The Baltic Exchange and the Institute of Chartered Shipbrokers present a series of five lectures in Singapore and London, intended to support and develop brokers and operations professionals.

Introducing you to industry thought leaders who will share their views on important topical events and trends, use of financial tools, shipping law and best practice. These lectures will bring into sharp focus how knowledge of these vital areas benefit broking teams and their ability to act as professional advocates for their owners and charterers.

Taking place on the same date from 13:00 both in Singapore at SGX Centre 1 and at 13:00 in London at the Baltic Exchange, each lecture concisely presents attendees with a wealth of experience and insight from senior shipping executives on a specific area of the industry.
