

Critical Elements of Ship Chartering And Bills of Lading with Letters of Indemnity

*Proudly sponsored by Pacific Basin and
Presented by the Institute of Chartered Shipbrokers (ANZ)*

PULLMAN AUCKLAND HOTEL

Cnr Princes Street & Waterloo Quadrant,
Auckland, New Zealand

**Wednesday,
23rd July 2025**

Navigating Chartering and Bill of Lading Risks in a Complex, Changing Global Trade Environment

The Workshop will examine the critical elements of **charter agreements and the obligations** of each principal to one another and **best practices for mitigating exposure**, ensuring compliance, and maintaining commercial integrity in a high-stakes, rapidly changing environment.

In the current landscape of global trade the legal and commercial risks associated with the use of Bills of Lading have become increasingly pronounced. A **comprehensive handling of Bills of Lading** (including e bills) and **Letters of Indemnity**, is essential to avoid disputes, claims and operational delays.
